EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2024-2028	Engineering & Computational Mechanics	National Institute of Technology Jamshedpur	7.3
2023	CBSE(XII)	Kendriya Vidyalaya Simdega, Jharkhand	84.4%
2021	CBSE(X)	Solitaire Educational Academy Gumla, Jharkhand	75.4 %

EXPERIENCE

Team Innoreva

- Developed Android application features using Kotlin & improved Ui using jetpack compose.
- Collaborated with team members using Git.
- Fixed bugs and maintained existing modules.

Full Stack PROJECTS

Ecommerce Android App | [GitHub Project link](#)

- Developed secure **Firestore Authentication** and user profile management.
- Built **product browsing, search, filtering**, and a persistent **shopping cart**.
- Integrated **REST APIs** using **Retrofit** with **MVVM** and **Clean Architecture**.

E book | [GitHub Project link](#)

- Developed book discovery with category-based search and bookmarking functionality.
- Implemented reading history and user preference synchronization using Firestore.
- Designed a clean, responsive reading experience using Jetpack Compose and MVVM.

Food Delivery App | [GitHub Project link](#)

- Built **restaurant browsing, menu search, filtering**, and **dynamic cart management**.
- Implemented **order placement** and **real-time order tracking**.
- Integrated **REST APIs** using **Retrofit** with **Clean Architecture**.

Contact App | [GitHub Project link](#)

- Developed **CRUD** operations with **Room Database** for efficient contact management.
- Implemented **real-time search, alphabetical sorting**, and **input validation**.
- Built a lifecycle-aware architecture using **MVVM**, **ViewModel**, and **LiveData**.
- Followed **Clean Architecture** and the **Repository Pattern** to create a scalable, maintainable, and responsive application.

TECHNICAL SKILLS

- **Programming Languages:** C/C++, Python, Kotlin
- **Android Development:** Android SDK, Jetpack Components (View Model, Live Data, Navigation, Room)
- **UI Development:** XML Layouts, Jetpack Compose
- **Database:** SQLite, Room Database, Firebase (Firestore / Realtime DB)
- **APIs & Networking:** REST APIs, Retrofit, Volley
- **Tools & Platforms:** Android Studio, Git, GitHub, Figma
- **Other Technologies:** Firebase (Authentication, Cloud Messaging, Analytics), Gradle
- **Operating System:** Windows, Android

Key COURSES TAKEN

- **CSE & Math:** Introduction to C, Fundamentals of Computers, Object Oriented Paradigm in C++, Data Structures and Algorithms, Computer Organization & Architecture, Python Programming, Operating System, Database Management System, Integrated System Design, Discrete Mathematics, Numerical Methods, Computer Networks & Security, Software Engineering, Compiler Design, Computer Graphics & Multimedia
- **Others:** Basic Electronics & Electrical Engineering, Engineering Drawing, Product Design & Development, Engineering Ethics and IPR, Microprocessor: Theory & Applications

CERTIFICATIONS

- **Participation Certificate** by Quanta AI Lab X MVI Lab

[View Certificate](#)

ACHIEVEMENTS/LEARNING

- Built Multiple full-Stack projects
- Solving 200+ Question on LeetCode
